1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE TITLE:

The title has been changed to -- Transfer Device Having Casing with Elastic Member --.

2. The following is an examiner's statement of reasons for allowance:

The applicant claims a transfer device for transferring developer to a sheet via electrostatic discharge wherein the transfer device has a casing having an electrically insulating element on the sheet entrance side which projects upward into the paper sheet feed path and which is capable of being bent by an elastic member and wherein the transfer device is offset in a direction upstream to the sheet conveyance direction which is not anticipated or rendered obvious over the prior art of record.

The closest prior art seems to be JP 06-51652 and JP 08-211758 which discloses a transfer device having an insulating element which is capable of being bent by an elastic member however these transfer devices are not offset nor does the insulating member project upward into the paper feed path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert Beatty whose telephone number is (571) 272-2130. The examiner can normally be reached on M-F from 9 to 6.
